

# NOMINALISATION AND NOUN PHRASES

---

**Why is this sentence ambiguous?**

*We visited their country house.*

**Why might the following be ambiguous?**

*A small business loan*

*A green apple pie*

*A fresh cheese cake*

**Consider the following sentences. Do any of them sound odd? Why?**

*The book is on the table in the corner.*

*The book is on the corner table.*

*The girl in the corner is reading the book .*

*The corner girl is reading the book.*

**Which of the following three sentences ‘doesn’t work’? Why?**

*The lab instrument doesn’t work.*

*The lab technician doesn’t work.*

*The lab professor doesn’t work.*

**Make two-word noun + noun combinations for each of the following:**

*The lens of the binoculars*

\_\_\_\_\_

*The leg of the trousers*

\_\_\_\_\_

*The race to obtain arms*

\_\_\_\_\_

*A piece of news (from TV, radio or newspapers)*

\_\_\_\_\_

*The blade of the scissors*

\_\_\_\_\_

*An epidemic of mumps*

\_\_\_\_\_

**How are the following pairs of sentences different?**

*a heavy metal detector / a heavy-metal detector*

*a man eating shark / a man-eating shark*

*a French language film / a French-language film*

*a little appreciated book / a little-appreciated book*

**Which of the following is more natural? Or are both options acceptable?**

*books for children / children's books*

*Parkinson disease / Parkinson's disease*

*for the sake of convenience / for convenience' sake*

*in ten years' time / ten years from now*

*Jon and Cathy's dogs / Jon's and Cathy's dogs*

*The name of the President of the European Central Bank / the European Central Bank President's name*

**Compare the following pairs of sentences. What is the main difference between them?**

Researchers have to judge <b>how valid and reliable the web sites are</b> .	Researchers have to judge <b>the validity and reliability of the web sites</b> .
<b>How the babies moved their limbs</b> was tracked by sensors.	<b>The movement of the babies' limbs</b> was tracked by sensors.
Results suggest <b>that students use the WWW widely</b> .	Results suggest <b>widespread use of the WWW by students</b> .
It is now possible <b>to mass produce pure human antibodies</b> .	<b>The mass production of pure human antibodies</b> is now possible.
<b>Women have a weaker immune response to allergens</b> with each successive pregnancy.	<b>Women's immune response to allergens</b> weakens with each successive pregnancy.

**Task 1: Rewrite the following sentences to make them more academic.**

1. The test aimed to prove how playable the game was.
2. The blades were extremely sharp and this made them highly effective weapons
3. There was a clear pattern to how participants self-assessed their performance.
4. The map shows where the new areas of forestry are.
5. This study clearly demonstrates that diet greatly influences toddlers' behaviour.

## Noun Phrases

Nouns are **PREMODIFIED** in 3 ways:

1. ATTRIBUTIVE ADJECTIVE (a special project, an internal memo, a difficult choice, a certain something, a reasonable request)
2. PARTICIPIAL ADJECTIVE (an interesting theory, a staggering figure, a monitoring device, hidden costs)
3. NOUN PREMODIFIER (bus strike, police report, business district, Liverpool Street station, school evacuation procedures, World Health Organisation, hurricane protection system)

Nouns are **POSTMODIFIED** in 2 ways:

1. WITH A CLAUSE

ADJECTIVE CLAUSE <ul style="list-style-type: none"><li>• the <u>circumstances</u> <b>that led up to his dismissal</b></li><li>• the <u>support</u> <b>[that/which] we received</b> was phenomenal</li></ul>
-ING (PRESENT PARTICIPLE) CLAUSE <ul style="list-style-type: none"><li>• the <u>man</u> <b>standing next to Dr. Smith ...</b></li><li>• a <u>lion</u> <b>devouring its prey ...</b></li></ul>
-ED (PAST PARTICIPLE) CLAUSE <ul style="list-style-type: none"><li>• the <u>building</u> <b>situated on the corner</b></li><li>• the <u>candidate</u> <b>chosen for the job ...</b></li></ul>
“TO” CLAUSE <ul style="list-style-type: none"><li>• the <u>person</u> <b>to see...</b></li><li>• the <u>thing</u> <b>to do ...</b></li></ul>

2. WITH A PHRASE

APPOSITIVE NOUN PHRASE The <u>Chancellor of the Exchequer</u> , <b>Mr. George Osborne ...</b> The <u>seat of parliament</u> , <b>the Palace of Westminster ...</b>
PREPOSITIONAL NOUN PHRASE a <u>list</u> <b>of requirements</b> their <u>demand</u> <b>for better working conditions</b>

**Task 2: Construct one noun phrase using each of the above pre- and post-modification mechanisms.**

1. Attributive adjective: \_\_\_\_\_
2. Participial adjective: \_\_\_\_\_
3. Noun premodifier: \_\_\_\_\_
4. Adjective clause: \_\_\_\_\_
5. -ing clause: \_\_\_\_\_
6. -ed clause: \_\_\_\_\_
7. “to” clause: \_\_\_\_\_
8. Appositive noun phrase: \_\_\_\_\_
9. Prepositional noun phrase: \_\_\_\_\_

**NOTE:**

Most formal writing will include a mix of these patterns but NOUN PREMODIFICATION and PHRASAL-PREPOSITIONAL POSTMODIFICATION are particularly prevalent in academic writing, where a 'compressed' style designed to communicate large amounts of information efficiently and economically is essential.

**Task 3: Compress the following noun phrases (all post modified with adjective clauses) to make them more formal and academic-sounding.**

1. people who create web pages
2. treatments that are based on antibodies
3. people who are infected with HIV
4. a part of the course that must be completed
5. Data that have been released recently
6. Research that has been done recently
7. Plants that are grown in this manner
8. The fossils that have been newly unearthed
9. Some of the radio stations that broadcast on shortwave
10. Researchers who know a lot about the subject
11. Children who speak two languages
12. A company that is run by the state
13. The research that has been reported here

Tasks 1 and 3 from <https://www.llas.ac.uk/~/materialsbank/mb063/eap/05/rs70402.htm>

**NOTE:**

Of course, you don't have to avoid adjective clauses completely as a means of noun post-modification. You do need variety in your writing as well.

**Task 4: Underline all the noun phrases in the following text.**

Autonomous learning has been defined as 'the ability to take charge of one's own learning' and it is associated with students taking a more active role in the learning process (Holec, 1981). The autonomous learner is viewed as an 'independent, self-directed life-long learner' (Betts, 2004). These students, therefore, do not confine themselves to the material being taught, but rather take an active role in seeking and processing information and developing transfer skills to apply information in a broader context for their own needs or interests (Chan, 2003). For the purpose of defining someone as educated, they must be able to incorporate new information with old, actively engaging in the process of learning, rather than simply learning content (Barr and Tag, 1995; Cross, 1999; Greene, 1988; Howell, 2002, 2006). Suggested modes of promoting learner autonomy include tiered assignments (with one assignment building on the foundation of the previous), flexible groupings (which allows for students to pick and choose within assignments) (Betts, 2004), and problem-based learning (students are given the opportunity to engage in independent problem solving) (Van Den Hurk, 2006). The education process should be viewed as a long-term aptitude development effort that seeks to foster personal preparedness for later stages of life (Jimenez Raya and Perez Fernandez, 2002). Therefore, it is important to identify methodological/pedagogical frameworks that foster the development of learner autonomy.
